

Profile

I am looking for an opportunity where I can demonstrate and develop my skills in technology and English language. My main goal is to gain experience and knowledge in the technology field contributing to the success of the team and the company, all this to help me in my professional dream of becoming a Front-End programmer. I love working with people, learning new approaches to solving problems, and even more if it involves technology.

Skills

- Proficient user of MS Office
- Attention to detail
- Teamwork and collaboration
- Growth mindset
- Learning Strategies
- Interpersonal skills

Language

Advanced English

Technology Intern

Passion for constantly learning and delivering exceptional and unique work.

Education

Anticipated 2027

Brigham Young University - Idaho

Bachelor in Applied Technology | Full-Stack Developer

- A bachelor's degree in Applied Technology helps students prepare for careers in software and web development, information technology, and other technology-related fields. Students acquire specific technical skills in the area of programming, such as front-end and back-end development, database and systems administrations.

Anticipated 2023

Video Course - Gustavo Guanabara

Certificate in Python 3 - World 1, 2 and 3

- The first world of the course introduces the language, its concepts, and teaches some basic features.
- The second world presents the repetition structures, very important for any language, such as the if, else, for and while commands and their usability.
- The third world introduces the data structures, very important for any language, such as structures for tuples, lists, dictionaries, and it also teaches functions, modules and packages.

2022 - 2023

Bulletproof UX UI Design - Gabriel Silvestre

Certificate in UX UI Design

- Gaining insight into the fundamentals of UX and UI.
- Mastering the Figma tool.
- Interface design with focus on UX in order to generate a good user experience, mobile, desktop or smart devices.

2021 - 2022

Brigham Young University - Idaho

Certificate in Pathway Connect

- Pathway Connect Worldwide is a one-year, all-english course that helps students prepare for the job market and to study at a foreign university through the following principles: Learning skills, growth mindset, learning model and principles, market strategies, mathematical and quantitative reasoning, better communication through writing and speaking.

Experience

May 2022 - March 2023

Trine - UX/UI Studio

Interface Designer

- I did the visual design of wireframes and created a website for an interior designer who was looking to showcase her projects and services through a functional, beautiful and minimalist site.
- I assisted in the development of Designs Systems to ensure standardization during the creation of project screens.
- I created and improved the screen design to meet the requirements of the strategy and provide the best user experience.
